EXPERIENCE KNOWLEDGE

I have 1 Year Experience in Customer Associate process under Altruist Technologies Pvt.Ltd,Chennai.

CERTIFICATION

- ✧ Completed Value Added Course on web-Design
- ✧ Completed Python course on Besant Technologies,Chennai.

PERSONAL STRENGTH

- ✧ Honest and Hardworking
- ✧ Willingness to Learn
- ✧ Time Management

PROJECTS

- ✧ Web Scrapping
- ✧ Desktop Notifier
- ✧ Xml Parse

Web Scrapping:

- ✧ Web scraping, is data scraping used for extracting data from websites.
- ✧ Web scraping software may directly access the World Wide Web using the Hypertext Transfer Protocol or a web browser.
- ✧ It is a form of copying in which specific data is gathered and copied from the web, typically into a central local database or spreadsheet, for later retrieval or analysis. include the modules like request and beautiful soap and pandas.
- ✧ Using pandas to put the value returned from the website into a CSV for web scrapping.

Desktop Notifier:

- ✧ A Desktop Notifier is a straightforward application that generates a notification message in the form of a pop-up message on the desktop.
- ✧ For this Python project, we are required to install two necessary packages. The first package is 'requests', which will help us fetch data from the web, and the second package is 'plyer', which will allow us to create notifications on the computer.
- ✧ We will start by importing the required libraries and modules like datetime, time, requests, and plyer.
- ✧ For desktop notifier u can monitored the battery level of the system and included that in desktop notifier
